---

### OMB FABRICATION

- Fabricates and installs a wide range of architectural and structural metalwork for the construction and service industries.
- Manufactures in mild steel, stainless steel (304, 316, duplex) aluminum and specialty steels upon request.
- All our welders are coded to Australian standards – AS/NZS 1554.1, AS/NZS 1554.5 structural and general purpose welding.
- 40 trade qualified boilermakers, apprentices and TAs employed throughout the group.
- We can supply and install the full metalwork packages as required by today's construction companies.
- With purchasing power unrivalled in Western Australia we can supply and install more competitively than our competitors.
- Employ 3 full time CAD draftsmen with over 40 years' experience across the team.
- Integrates the highest safety standards possible into the manufacture and installation of its products. It provides certified compliance to Australian Design Rules (ADRs), NCC and NZ/AS standards.

### STAFF

- **Chris Fletcher** manages a dedicated support team of professionals encompassing estimators, project manager and a dedicated team of fabricators and site personnel. Chris is driven by producing on budget, on time solutions to assist clients with any size project.

## **CORE VALUES OF OMB HOLDINGS**

---

We work on four pillars of strength, which we are proud to say are adopted by team members across all divisions:

- Honesty
- Integrity
- Teamwork
- Collaboration

Most importantly, we aim to work in a collaborative way to enable us to grow our relationships with our clients in an open, honest and transparent manner.

We believe this is the best way to:

- Drive growth.
- Retain strong long and lasting relationships.
- Secure our future and in turn that of all our businesses.

I look forward to discussing the information in this document with you personally and thank you for the time you have given in reading this information. It is always good for a WA owned company employing local people to be involved in WA Projects.

We are more than happy to supply references if required.
